

*Pursuit of beauty is a constant in my life.
It infuses everything I do.*

*When working on vessels created to
adorn our tables I derive pleasure from
knowing that, through the subtle intimacy
that grows from their daily use, these pieces
will become treasures in people's lives.*

original artwork that will stand the test of time

*"The simplest shapes are the most
beautiful. Yet these are often the most
difficult to produce. I delight in the
challenge of creating contemporary
vessels based on classic shapes. When
you are working with pure form, the
tiniest fraction of an inch at any spot
will make the difference between just a
vase and a vase full of life"*

*"The rhythmic pulse of creativity overwhelms body and soul, vulnerability
abandoned as my passion flows into the clay. Hours pass, I emerge, exhausted
and overwhelmed by the beauty of what has poured out of me."*

Creating beautiful vessels for people to use or contemplate is a thoroughly enjoyable way to spend one's life. I have been potting since I was 13 and have yet to grow tired of any aspect of my job. I love going into my studio every day full of energy and inspiration to create anew. Mugs, bowls, jugs, casseroles—I make them all in a variety of solid colours designed with the user in mind. I have always loved making functional ware, love that people start their days with coffee in one of my mugs or cereal in a beautiful bowl.

For my decorative works, my focus is on expressing the beauty and strength of pure form and then creating unique glazes that will enhance my vessels and imbue them with the look of unearthed antiquities. Working like a painter, I layer various glazes in successive firings to build up a richness of surface colour and texture on each piece.

DECORATIVE WARE

My gallery and studio are open to the public year round. I enjoy showing visitors what I am working on and you are welcome to look around the studio as well as the gallery when you visit.

I am prolific and exhibit regularly so there is an abundance of both decorative and functional works to choose from.
